Our Story

“QUALITY IS OUR NUMBER ONE PRIORITY”

As a wholly-owned subsidiary of the \$108 Billion dollar per year company Sinomach, we have produced over 10 million portable generators over the past 17 years for the worldwide market. For years we have built private label generators for companies such as Ridgid, Kohler and many others! In 2015 we made the decision to bring our manufacturing expertise to North America directly under the FIRMAN brand.

We currently operate four generator manufacturing facilities and have the ability to produce over 3,000 generators PER DAY! Being the manufacturer means we are vertically integrated. That's a fancy way of saying that every FIRMAN generator is 100% FIRMAN from concept to design to engineering to manufacturing and production. When you take a good look at a FIRMAN gen you will see that it's all FIRMAN including our Automatic voltage regulator, carburetor, FIRMAN Fat Head Engine Block, FIRMAN Power Stream Alternator, Air Cleaner, Valve Cover and even the muffler guard.

At FIRMAN quality is our number one priority. Every new model is tested for 500 hours non-stop to make sure we catch any areas for improvement before production. We test all of our generators in a hot/cold room that simulates both freezing cold winter nights and blistering hot summer days. Testing in a huge, pressurized room allows us to simulate the elevations at which customers might live enabling us to ensure that whether you live at the beach or high in the mountains your FIRMAN generator will always provide the power you need.

All of this testing leads to constant innovation. We feel that it's not enough to be “as-good” as the competition, so we strive to be better in every way that matters to our customers. After conducting extensive research into what our customers really want in a portable generator our conclusions were no surprise. Our findings indicated people want more power, bigger fuel tanks, longer run times and excellent customer support.

We engineered our performance line with these customer desires in-mind by providing independently certified industry-leading power output. We increased our tank sizes to be over 25% bigger than our competition in every category (where they have 3.4 gallon tanks we went with 5 gallons, and on the bigger gens where they use a tiny 6 gallon tank we jumped ahead to 8 gallons!). Bigger tanks means longer run times; 12-14 hours on every gen without refueling! We didn't hesitate to provide an incredible 3 year warranty on all our gens, backed by our skilled service and parts department located in Phoenix, Arizona.

Performance Series

The FIRMEN Performance Series generators are the heart of the FIRMEN line-up. As a leader in power generation for the past 20 years FIRMEN has designed our new Performance Series for the North American market. These generators perform everywhere it counts – bigger power, longer run times and an industry leading 3 year warranty. The Performance Series is comprised of over 20 models ranging from 1,000 to 10,000 watts. Some of the standard features include, electric start and remote start, the most commonly used receptacles, tubular steel frames, protective outlet covers and long lasting powder coated tanks.

In the areas of ease of use and service FIRMEN has delivered in a big way! FIRMEN Performance Series includes everything you need to get started right in the box, including a detailed owner's manual, funnel, start-up oil, tool kit, wheel kit when applicable, battery for our electric and remote start units, and quick-start guide. We've backed up every FIRMEN Performance Series with our legendary 3 year warranty as well as technical support provided by our highly skilled technicians in Phoenix, AZ.

**“ THE FIRMEN PERFORMANCE
SERIES GENERATORS ARE THE
HEART OF THE FIRMEN LINE-UP. ”**

P01001

1050 Watts Generator

FIRMAN®

Performance series

Running / Starting Watts: 1050/1300

Features & Benefits

- The FIRMAN OHV engine (Max-Pro Series) for longer life/higher performance/lower maintenance.
- Cast iron sleeved engine for long durability with automatic low oil shutdown protection.
- Largest tank in industry with extended run-time (less re-fueling) with built-in tank gauge for convenience.
- Quiet muffler (Whisper Series) with USDA FS certified spark arrester.
- Conveniently located multi-featured control panel with FIRMAN custom designed outlet cover protecting outlets from dirt, dust and debris.
- Bonus accessories including engine oil, oil funnel, tool kit and battery charge cable.
- 3 year warranty.

- Largest tank in the industry with extended run-time (less re-fueling) with integrated fuel gauge for convenience.
- Quiet muffler (Whisper Series) with USDA FS certified spark arrester.
- Conveniently located multi-featured control panel with FIRMAN custom designed outlet cover protecting outlets from dirt, dust and debris.
- 4 in 1 Data-Minder monitors running hours, voltage and frequency in conjunction with our low oil indicator light.
- Durable compact roll-cage frame design with 1.0" steel tubing.
- FIRMAN new designed AVR (Automatic Voltage Regulator) VC (Volt-Lock) Series.
- Bonus accessories including engine oil, oil funnel and tool kit.
- 3 year warranty: best in industry.

Whisper Series

True to its name the FIRMEN Whisper Series features some of the quietest inverter generators on the market. We've engineered these inverters so that they are able to vary their engine speed based on load. Not only does this technology mean FIRMEN inverters are whisper quiet, it makes them incredibly fuel efficient, providing up to 9 hours of run time on one tank of fuel. FIRMEN Whisper Series inverters deliver clean power at a very low Total Harmonic Distortion (THD) which makes them ideal for sensitive medical or electronic equipment.

In order to provide the ultimate in flexibility all FIRMEN Whisper Series inverters include USB ports that can be used to charge cell phones, tablets and all of the other devices that have become such integral parts of our lives. Our 3000W series inverters and parallel kits feature an RV-Ready TT-30R outlet so you can keep the fun going with your camper, toy hauler or RV. It's possible to achieve nearly double power or more by connecting two FIRMEN Whisper Series inverters with a FIRMEN Parallel Kit, and with FIRMEN you have the freedom to connect two of the same or even different size inverters. To ensure safety in all types of weather we've included outlet covers on every Whisper Series inverter.

In the areas of ease of use and service FIRMEN has delivered in a big way! FIRMEN Whisper Series Inverters include everything you need to get started right in the box, including a detailed owner's manual, funnel, start-up oil, tool kit, and quick-start guide. We've backed up every FIRMEN Whisper Series inverter with our legendary 3 year warranty as well as technical support provided by our highly skilled technicians in Phoenix, AZ.

**SOME OF THE QUIETEST
INVERTER GENERATORS
ON THE MARKET**

W01781

1700 Watts Generator

FIRMAN®

Whisper series

Running / Starting Watts: 1700/2100

Features & Benefits

- Fuel Economy Mode - reduces fuel consumption and promotes engine efficiency.
- The FIRMAN OHV engine (Max-Pro Series) for longer life/higher performance/lower maintenance.
- Cast iron sleeved engine for long durability with automatic low oil shutdown protection.
- Largest tank in the industry with extended run-time (less re-fueling) with integrated fuel gauge for convenience.
- Quiet muffler (Whisper Series) with USDA FS certified spark arrester.
- Conveniently located multi-featured control panel with FIRMAN custom designed outlet cover protecting outlets from dirt, dust and debris.
- Bonus accessories including engine oil, oil funnel, tool kit and battery charge cable.
- 3 year warranty.

Hybrid Series

FIRMAN Hybrid Dual Fuel Generators – the new standard in power generation and exceptional performance. Our Dual Fuel generators allow users the option to run off traditional gas or liquid propane for 20 hours of combined run time (with a common 20 lb LP tank) and our largest in industry gas tanks, 5 Gal on the FIRMAN 3-4.9 KW's and 8 Gals on our 5KW and larger. Experience the power and performance of FIRMAN generators, whether you're a Crossroads Camper, Weekend Warrior, Professional Contractor, or just preparing for the next storm or the next "Zombie Apocalypse". Our Hybrid "Dual Fuel" models range from 3000W's to 10,000W's so you can accommodate any of your outdoor power needs and have fuel options that will allow you to accomplish your mission when and where you need.

In the areas of ease of use and service FIRMAN has delivered in a big way! FIRMAN Hybrid Series Dual Fuels include everything you need to get started right in the box, including a detailed owner's manual, funnel, start-up oil, tool kit, wheel kit, battery for our electric start units, 5.5 ft propane hose, and quick-start guide. We've backed up every FIRMAN Hybrid Series with our legendary 3 year warranty as well as technical support provided by our highly skilled technicians in Phoenix, AZ.

Hybrid Series

FIRMAN[®]

 **Running/Starting Watts: 3300/4100**

 **Running/Starting Watts: 3650/4550**

Features & Benefits

- Runs on gasoline or propane fuel, giving you flexibility while out on the road or during an emergency.
- Extended propane regulator/hose (5.5ft) for convenience when running off of a larger propane tank.
- The FIRMAN OHV engine (Max-Pro Series) for longer life/higher performance/lower maintenance.
- FIRMAN newly designed AVR (Automatic Voltage Regulator) VL (Volt-Lock) Series.
- Cast iron sleeved engine for long durability with automatic low oil shutdown protection.
- Largest tank in the industry with extended run-time (less re-fueling) with integrated fuel gauge for convenience.
- Quiet muffler (Whisper Series) with USDA FS certified spark arrester.
- Conveniently located multi-featured control panel with FIRMAN custom designed outlet cover protecting outlets from dirt, dust and debris.
- 3 in 1 Data-Minder monitors running hours, voltage and frequency.
- Wheel Kit with heavy duty and over size flat free wheels with high leverage single folding handle with grip for easy maneuver.
- Durable compact roll-cage frame design with 1.0" steel tubing.
- Bonus accessories including engine oil, oil funnel and tool kit.
- Included battery for your convenience.
- 3 year warranty: best in industry.

Hybrid Series

FIRMAN®

 **Running/Starting Watts: 7250/9050**

 **Running/Starting Watts: 8000/10000**

Features & Benefits

- Runs on gasoline or propane fuel, giving you flexibility while out on the road or during an emergency.
- Extended propane regulator/hose (5.5ft) for convenience when running off of a larger propane tank.
- The FIRMAN OHV engine (Max-Pro Series) for longer life/higher performance/lower maintenance.
- FIRMAN newly designed AVR (Automatic Voltage Regulator) VL (Volt-Lock) Series.
- Cast iron sleeved engine for long durability with automatic low oil shutdown protection.
- Largest tank in the industry with extended run-time (less re-fueling) with integrated fuel gauge for convenience.
- Quiet muffler (Whisper Series) with USDA FS certified spark arrester.
- Conveniently located multi-featured control panel with FIRMAN custom designed outlet cover protecting outlets from dirt, dust and debris.
